4. Knowledge That Matters

Not every knowledge is power. You have to determine which knowledge is useful and which is simply waste of time and energy. The good news is that for being a successful investor, you don't need to know a mountain of knowledge. And whatever you need to know is only about yourself and your goals. Isn't it liberating to know that self-knowledge is all that you need to become a successful investor.

- I. Your risk tolerance
- II. Goal's time horizon
- III. Your risk capacity
- IV. Your risk requirement

With these feedback, we can develop right asset allocation (allocation between Equity and Debt) for each goals.

Your goals need constant monitoring and take the timely decision so that you remain ready for any positive or negative surprise of the market. A clear cut execution road map makes your financial journey fruitful and enjoyable.
